I. PHILOSOPHY

LOT is an RPG and Arcade of self-care. Every check-in is a move. Every streak is a power-up. Every answered memory question writes one more line of your story. Badges are not trophies – they are transmissions from a future self back to the present one.

The badge system speaks in symbols because symbols reach parts of us that words cannot. A single ■ carries more meaning than a paragraph. An ■■ says: *you began*.

II. THE DUAL BADGE SYSTEM

LOT offers two visual metaphors for growth. Players choose their language.

A. WATER PATH ■ → ≈ → ■

Symbol	Name	Day	Meaning
■	Droplet	7	First drops form
≈	Wave	30	Waves begin to flow
■	Current	100	Deep currents established

Water is patient. It does not force – it finds the path.

B. ARCHITECTURE PATH |-- → |==| → ||.||

Symbol	Name	Day	Meaning
--	Foundation	7	Foundation laid
==	Structure	30	Structure rises
.	Architecture	100	Architecture complete

Architecture is intentional. Every block placed with care becomes load-bearing.

III. MILESTONE BADGES

Water	Arch	Day	Name (W / A)	Rarity	Unlock Message
■	--	7	Droplet / Foundation	Common	■ First drops form ■
≈	==	30	Wave / Structure	Uncommon	■ Waves begin to flow ≈
■	.	100	Current / Architecture	Rare	■ Deep currents established ■
■■	=	180	Half-Year Voyager	Epic	■ Six months of presence
■■■	Y	365	The Long Count	Legendary	■ A year. The architecture stands.

IV. ACHIEVEMENT SYSTEM (RPG LAYER)

Achievements are earned through meaningful actions – not grinding, but genuine engagement. Each achievement is a named marker in your story.

Symbol	Achievement	Rarity	Category	Condition	Unlock Message
■	First Breath	Common	Exploration	First emotional check-in	■ The system wakes.
■	Mirror Gazer	Common	Exploration	First memory question answered	■ You looked inward.

V. CITIZEN INDEX – CQGS EVOLUTION STAGES

The Evolution Widget tracks systemic growth through the CQGS Bioethics framework. Stages use ASCII symbols representing levels of system integration.

Symbol	Level	Stage	Description
.	1-9	Bootstrapping	System initializing. First signals received.
.	10-19	Initializing	Pattern compiler activating. Loops forming.
■	20-29	Integrated	Modules linked. Feedback loops open.
■	30-39	Compiled	Patterns locked in. Architecture stable.
■	40-49	Optimized	System self-tuning. Efficiency gains.
■	50+	Transparent	Fully transparent. Self-sustaining system.

CQGS Bioethics Framework – Module Map

VI. RPG STORY ARCS

LOT's narrative co-evolves with the user's practice. The system is not a passive tracker – it is a co-author. Five chapters unfold across 100 levels.

Ch. 2	EXPLORATION	Levels 10-29	Connections form. A shared language emerges.
