Every badge, quest, and easter egg in LOT is designed around one principle: self-care should feel as addictive as the best arcade games you ever played. The system evolves with you. You evolve with the system.

1. BADGE SYSTEM OVERVIEW

LOT's badge system uses two parallel metaphors for growth. Each user chooses their preferred theme – Water (organic flow) or Architecture (deliberate construction). Symbols are pure ASCII/Unicode: no emoji, no images. Just marks.

DUAL THEME DESIGN

PROGRESSION SYMBOLS (Unicode-safe rendering)

WATER THEME

■ --> ≈ --> ■

■ Droplet Day 7 First drops form. Presence establishing.

≈ Wave Day 30 Waves begin to flow. Rhythm emerges.

■ Current Day 100 Deep currents established. Mastery.

ARCHITECTURE THEME

|-- --> |=| --> ||.||

|-- Foundation Day 7 Foundation laid. Structure begins to rise.

|=| Structure Day 30 Architecture emerges. Each piece finds place.

||.|| Mastery Day 100 The system breathes with you.

BADGE STORAGE & MECHANICS

Storage: localStorage key: earned_badges (comma-separated badge IDs)
Theme pref: localStorage key: badge_theme [water | architecture]
Unlock queue: localStorage key: badge_unlock_queue (FIFO notification)
Race guard: awardingBadge mutex – prevents duplicate awards in multi-tab
Check trigger: checkAndAwardBadges() polls /api/user-stats for streak data
Notification: Memory Widget renders unlock toast on next appearance

SEPARATOR SYSTEM

SEPARATOR & LEVEL DISPLAY

Separator dot: * (DEFAULT_SEPARATOR – used before first badge earned)

Sub-indicator: -> (SUB_INDICATOR – hierarchical display prefix)

Progression: --> (PROGRESSION_ARROW – milestone chain display)

Profile Level field (dedicated row under Awareness Level):

Day 1-6 : (empty) – system builds in silence

Day 7+ : ■ or |-- (theme-dependent)

Day 30+ : ≈ or |=|

Day 100+ : ■ or ||.||

BADGE THEME AESTHETICS

Water --> Fluid animations * Organic curves * Radial gradients * Wave animations
Architect --> Geometric precision * Structural depth * Linear gradients * Pulse animations

2. MILESTONE BADGES — CORE 3-TIER PROGRESSION

4. INTERFACE EVOLUTION SYSTEM — 7 DIMENSIONS * 5 DENSITY LEVELS

The Interface Evolution System reshapes the LOT dashboard based on user growth. It is not a skin – the system literally builds itself around the user's rhythm. Zero config. Everything is automatic and earned.

5. NARRATIVE & QUEST SYSTEM — RPG STORY ARC

LOT runs an RPG-style narrative engine grounded in real user data.
The story is not fiction — it is a mirror. Quests derive from actual behavioral gaps.

NARRATIVE WIDGET — 4 VIEWS

- Arc: Level, chapter title, narrative prose, next milestone
- Unlocked: Earned achievements sorted newest-first (max 5 shown)
- Active Quests: Live quests with percentage progress bars

- Cleanness Hygiene, environment, routine care — space as biofield mirror
- Routine Sleep, activity, work — lifestyle transparency and rhythm
- Nutrition Biofield, ATP, energy quality — body as quantum system
- Laughter Curiosity, joy, genuine human emission — the anti-grind signal

SELF-ASSEMBLY ENGINE — 9 MODULES

- Biofield Engine Energy, mood, ATP signals

10. UNLOCK TRIGGERS & LOGIC — HOW EACH BADGE IS EARNED

All badge awards are non-destructive, atomic, and idempotent.
Badges cannot be lost. Unlock messages queue in localStorage.

CORE AWARD FLOW

AWARD PIPELINE

1. User activity generates a signal (widget interaction, answer, plan, etc.)

2. Signal recorded to Quantum Intention Engine + /api/logs

3. checkAndAwardBadges() fires after significant events:

– Memory answer submitted

– Planner saved

– Session start (streak check)

4. /api/user-stats fetched --> streak extracted

5. Milestone thresholds evaluated (7 / 30 / 100 days)

6. awardBadge(id) called --> localStorage updated --> unlock queued

7. Memory Widget reads badge_unlock_queue on next render

8. Unlock toast shown: -> [message] [symbol]

9. Queue item consumed (FIFO)

The badge system is designed to feel inevitable, not gamified.
You do not chase badges — they find you when you show up.
Easter eggs exist for the curious. Legendary badges exist for the committed.
The only badge that truly matters is the one you haven't earned yet.
