[I] BADGE SYSTEM OVERVIEW

LOT Computer uses a dual-track badge system – two parallel metaphors for personal growth. Users choose their preferred theme; both unlock at identical milestones.

WATER TRACK ≈	ARCHITECTURE TRACK ·
Growth through natural cycles. Droplet → Wave → Deep Current. Fluid, organic, cyclical – like tides that cannot be forced.	Growth through structural building. Foundation → Structure → Architecture. Each layer deliberate, each day another brick in the self.
◦ Droplet (7 days) ≈ Wave (30 days) ≈ Current (100 days)	└ Foundation (7 days) ═ Structure (30 days) · Architecture (100 days)

Theme selection stored in `localStorage("badge_theme")`. Earned badges stored in `localStorage("earned_badges")` as comma-separated IDs. An unlock queue – `badge_unlock_queue` – drives Memory Widget toast notifications.

[II] MILESTONE BADGES

Earned by maintaining a consecutive practice streak. The highest earned milestone appears as the Level: field on your Public Profile.

7 DAYS	[UNCOMMON]
Water : ◦ Droplet	Arch : ┌ Foundation
Seven consecutive days. The first cycle completes. A habit begins to crystallize.	Seven days mirrors the Mayan K'in mini-cycle – bar + 2 dots completing a first meaningful sequence.
↳ First drops form ◦	↳ Foundation laid ┌

30 DAYS	[RARE]
Water : ≈ Wave	Arch : ═ Structure
A full lunar month. Waves begin to flow – the structure has walls now.	One complete moon cycle. The practice is no longer new – it has become part of the rhythm.
↳ Waves begin to flow ≈	↳ Structure rises ═

100 DAYS	[EPIC]
Water : ≈ Current	Arch : ═· Architecture
A hundred days. Deep currents established. What was a choice is now a nature.	Five Mayan uinals. The system has self-assembled around your consistency.
↳ Deep currents established ≈	↳ Architecture complete ═·

[III] PATTERN BADGES

Pattern badges are awarded for behavioural patterns detected across your activity – not streaks. They reflect quality and variety of engagement.

BADGE	WATER	ARCH	RARITY
BALANCED	≈○≈	++	[UNCOMMON]
Trigger: All four Planner dimensions (Intent, Today, How, Feeling) used evenly.	You do not over-index on one planning dimension. The system evolves symmetrically.		W: Waters find equilibrium. ≈○≈ A: Load-bearing walls on all sides. ++
FLOW	≈○≈	□	[UNCOMMON]
Trigger: Multiple widgets engaged in a single session (Memory + Planner + Check-in).	Fluid movement between self-care modules. The architecture detected a flow state.		W: Embraced by the current. ≈○≈ A: The structure conducts. □
CONSISTENT	—○—	—·—	[UNCOMMON]
Trigger: Regular engagement at similar times of day for 7+ days.	Your practice has a rhythm. The system notices when you show up – same time, same intention.		W: Steady current. —○— A: The beam holds. —·—
REFLECTIVE	○○○	---	[RARE]
Trigger: Deep engagement with Memory questions – 25+ thoughtful answers.	You go deep, not just wide. The Memory Engine recognises that your answers build on each other.		W: Depth in reflection. ○○○ A: Dashed introspection. ---
EXPLORER	○:○		[UNCOMMON]
Trigger: Tried diverse answer options across multiple widget types.	Curiosity drives you. You test the boundaries of each module and return enriched.		W: Curiosity scatters like light. ○:○ A: Dotted wandering.

[IV] ACHIEVEMENT SYSTEM

Achievements are permanent server-side milestones tied to your activity logs – unlike badges (localStorage), they cannot be reset by clearing browser data. Each has a category, rarity tier, and icon name.

[V] EVOLUTION / CHAPTER SYSTEM

The CQGS Citizen Index maps total activity count to a Level 1-100 scale and places you within a narrative chapter. Each chapter unlocks new system behaviours, visual effects, and feature sets.

LEVEL	ACTIVITIES	TITLE	FORMULA
1–10	0–9	Beginner	$\text{level} = \text{count} + 1$
11–30	10–49	Explorer	$\text{level} = 10 + (\text{count} - 10) / 2$
31–60	50–149	Practitioner	$\text{level} = 30 + (\text{count} - 50) / 4$
61–90	150–499	Master	$\text{level} = 60 + (\text{count} - 150) / 12$
91–100	500+	Sage	$\text{level} = \min(100, 90 + (\text{count} - 500) / 50)$

[VI] RPG ARCHETYPES (CLASS SYSTEM)

LOT assigns each user a Psychological Archetype – the class system of the self-care RPG. Archetypes emerge from the CQGS psychological profile engine and influence narrative tone, quest types, and achievement weights.

The Explorer		High curiosity, wide exploration, tries every module. Quests favour novelty and discovery. Explorer badge unlocks fastest.
The Seeker		Spiritual depth, introspection, long memory sessions. Reflective badge unlocks fastest. Narrative focuses on inner cartography.
The Builder		Methodical, consistent, Architecture theme preferred. Consistent badge unlocks fastest. Quests favour structure and habit.
The Connector		Community-focused, Bridge Builder achievement first. Chat catalyst prompts prioritised. Connection achievements weighted higher.
The Guardian		Care-focused, Gentle With Self achievement first. Self-care prompts elevated. Care tier achievements weighted higher.
The Sage		All dimensions balanced, mastery track. Balanced badge unlocks fastest. Reaches Chapter 5 narrative earliest.

[IX] ASSEMBLY NARRATIVE SYSTEM

The Self-Assembly Narrative describes the LOT system as a living, building entity. Every user action is a signal that causes modules to transition through assembly phases. The interface co-evolves with the user.

DORMANT	○	Module never received a signal. Awaiting first interaction.
AWAKENING	◐	First signal received. Architecture senses a pattern forming.
FORMING	◑	Patterns detected. Structure crystallizing from your rhythm.
ASSEMBLED	●	Module self-assembled entirely from your signals.
INTEGRATED	≈	Module fully integrated. Wired deep into the system fabric.

Modules tracked: Memory · Planner · Emotional Check-In · Energy Capacitor · Pattern Recognition · Community Chat · Narrative · Goal Journey

Ecosystem nodes: LOT Computer · LOT Car · LOT Home – each with its own assembly state, cross-referencing the biofield.
