# 01 THE LOT RPG LAYER

LOT is more than a wellness tracker – it is a living RPG where every self-care action builds toward a richer inner story. Badges transform daily practice into a progression arc with real symbolic weight. Unlike gamification designed to drive engagement metrics, LOT badges are earned through genuine consistency and depth.

## ARCADE vs RPG

The ARCADE layer delivers instant feedback: streaks, toasts, level-ups. The RPG layer builds long-term narrative: chapters, archetypes, story arcs that evolve with your psychological profile over weeks and months.

## 02 BADGE SYSTEM — DUAL THEME

Badges display in the 'Level:' field on the Public Profile. Users choose between two visual languages for their growth story via Settings.

### WATER PATH ■ ■ → ≈ → ■

Philosophy: Growth through natural cycles, like water finding its path

|   |         |         |                                     |
|---|---------|---------|-------------------------------------|
| ■ | Droplet | Day 7   | First drops form. Singular moment.  |
| ≈ | Wave    | Day 30  | Pattern emerging. Tide in motion.   |
| ■ | Current | Day 100 | Deep, established, oceanic mastery. |

Extended:

|     |              |         |                                     |
|-----|--------------|---------|-------------------------------------|
| ■■  | Twin Drop    | Day 14  | Two-week pattern confirmed.         |
| ■≈  | Proto-Wave   | Day 21  | 21-day neural groove forming.       |
| ≈■  | Mid-Current  | Day 50  | Halfway to the deep water.          |
| ≈≈  | Dual Wave    | Day 60  | Practitioner threshold crossed.     |
| ■■  | Deep Reach   | Day 90  | Three-month immersion.              |
| ■■  | Dual Current | Day 180 | Half-year voyager.                  |
| ■■■ | Long Count   | Day 365 | LEGENDARY. The architecture stands. |

### ARCHITECTURE PATH ■ ■■ → ■■■■ → ■.■

Philosophy: Structural building and growth, construction of self

|     |              |         |                                          |
|-----|--------------|---------|------------------------------------------|
| ■■  | Foundation   | Day 7   | Ground laid. First pillar planted.       |
| ■■■ | Structure    | Day 30  | Walls formed. The frame holds.           |
| ■.■ | Architecture | Day 100 | Complete. The self as built environment. |

Extended:

|      |               |         |                                  |
|------|---------------|---------|----------------------------------|
| ■■   | Load-Bearing  | Day 14  | Structural crossbeam engaged.    |
| ■■   | Deep Found.   | Day 21  | Foundation reaches bedrock.      |
| ■■■  | Mid-Structure | Day 50  | Upper floors under construction. |
| ■■■■ | Master Frame  | Day 60  | Superstructure complete.         |
| ■■   | Inner Wall    | Day 90  | Interior architecture forming.   |
| ■■■  | Wing          | Day 180 | East and west wings added.       |
| ■■■  | Citadel       | Day 365 | LEGENDARY. Year One complete.    |

Three core milestones represent the Mayan vigesimal cycle philosophy: each completion is a return to origin at greater depth, not an endpoint.

## MILESTONE BADGE ART

## 12 DESIGN PHILOSOPHY

The LOT badge system draws from three deep well-springs: Mayan vigesimal counting, the symbolism of water, and Sci-Fi/cosmic aesthetics that make practice feel ancient and futuristic simultaneously.

### THE MAYAN LAYER

Mayan numerals:

· (dot) = 1      ■ (bar) = 5      ■ (shell) = 0 (completion)

Applied to LOT:

7 days = first mini-cycle (dot patterns ■ = ring/single dot)  
 30 days = uinal-like cycle (bars + circles ≈ = almost-equal/wave)  
 100 days = long count step (deep waves ■ = triple tilde)  
 365 days = Mayan tun year (the Long Count ■■■ / ■■■)

Key insight: Mayan time is cyclical, not linear. Day 100 is a return to origin at greater depth – not an endpoint. Each badge is a glyph.

### THE WATER LAYER

■ Droplet = individual moment, singular presence  
 ≈ Wave = pattern emerging, rhythm established  
 ■ Current = deep flow, self-sustaining, oceanic mastery

Water does not force – it shapes through persistence.  
 The LOT badge system is not about grinding. It is about returning.

### THE ARCHITECTURE LAYER

■■ Foundation = the first pillar, ground laid  
 ■■■ Structure = box-drawing order, the frame taking shape  
 ■·■ Architecture = the full system, dot at center: you

Architecture is intentional. Every block placed with care becomes load-bearing.  
 Your practice builds something that holds.
