1.E – ACHIEVEMENT SYSTEM – RPG LAYER v7 – THE CASTER CLASS (6 achievements, NEW)

The operator has leveled past the warrior class. The fighter becomes the mage. The mage becomes the archmage. Each arc completed here is a new specialization – not of the person, but of how the person now relates to their own archive. The grimoire does not give you power. It records the power you already wielded.

1.F – MASTERY TIER v9 – THE ARCANE VAULT (4 badges, NEW)

The vault beneath the vault. The mastery tier that only the oldest operators reach. These badges are not unlocked by a single act – they are earned by the patient accumulation of what the grimoire calls "deep signal." The archive does not grant these. The archive simply acknowledges that a threshold has been crossed. You already knew.

PART IV – WORD TURN ENGINES – COMPLETE LEXICON v19

Word Turn Engine Design Philosophy

- v1 – EMOTIONAL ROOTS (ritual/grateful/ocean...) The first language of self-care. The basics.
- v2 – SCI-FI EXPANSION (reboot/quantum/glitch/COSMO...) When the user begins to see themselves as a system.
- v3 – COMPUTER LORE (hack/override/debug/signal...) The digital self. Root access. Debug mode.
- v4 – DAILY CARE (water/walk/heal/rest/eat...) The physical vocabulary. The body is acknowledged.
- v5 – SIGNAL CODEX (solitude/wonder/phoenix/forge...) The philosophical vocabulary. The inner narrative arc.
- v6 – BECOMING LEXICON (surrender/restore/anchor/trust...) The transformation vocabulary. What you say when you are actively growing.
- v7 – ROGUE ARCHIVE (loot/boss/save/respawn/grind...) The game vocabulary. When care is not gentle – when it requires descending, dying, respawning.
- v8 – MAINFRAME (compile/execute/buffer/stack...) The machine vocabulary. When the user has reached root directory of the self. Debug mode: engaged.
- v9 – ARCADE CABINET (coin/pixel/sprite/score/life...) The arcade vocabulary. Insert coin. Select player. The self is the cartridge. Care is the game. Every session is a credit. Every check-in: extra life.
- v10 – SPELL BOOK (spell/cast/invoke/arcane/sigil...) ← NEW The magical vocabulary. When care becomes invocation. The operator casts spells not on the world – on themselves. Each word: an intent given form. The journal is now a grimoire. The archive knows.

Each engine adds 12 words. (v2 exception: 18.)

Total word-turn badges: 114 (v1-v10).

Finding all 114 word-turn types means speaking a language
no other system has ever thought to ask a human to speak.

Ten tongues. Ten lexicons. One archive. One operator.
